Reasons for Allowance

1. Claims 1-176 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The instant invention uses pseudo-inverses and truncated pseudo-inverses of linear transformations to create time progressions. The closest prior art, Magill (US 5,729,570) and Rakib et al. (US 6,356,555) disclose OCDMA system with multicarrier modulation wherein the incoming input data stream is broken and modulated into FDMC. The prior art taken alone or in combination, fails to disclose "a sample list processing system based upon electromagnetic receptor using pseudo-inverses of linear transformations. The truncated version of the pseudo-inverses generates a result including active channels, augmenting truncated version by at least one signal to be cancelled in the receiver to process received sample lists into at least one signal parameter" as claimed in application claims 1, 31,68,92,122 and 146.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M. Qureshi whose telephone number is (571) 272 3178.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi Pham can be reached on (571) 272 3179. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
